RETROFIT
WORKER / CONSULTANT

earn from **£17,000** to **£60,000**
in Cornwall and the Isles of Scilly

What role do **Retrofit Workers** play in the **Construction & Built Environment Industry**?

Retrofitters are vital to our Cornish carbon net-zero goals. 22% of our carbon emissions come from housing in Cornwall so tradespeople who can upgrade our home energy efficiency are in huge demand. Retrofitters insulate walls and roofs, install ventilation systems, make windows and doors airtight and install solar panels and heat pumps. **Find out more here:**

- You'll use **MATHS** and **DIGITAL SKILLS** to calculate quantities of materials and energy savings
- Good **COMMUNICATION** is vital to explain retrofit plans to homeowners
- Retrofitters love working as part of a **TEAM** of combined tradespeople to make buildings more efficient

Get started by **qualifying** in a **trade-based subject** or study the Built Environment in **Further Education**

Specialise with a top-up course or on the job training in energy saving solar, heating or insulating systems.

Train and progress to be a **Retrofit Assessor, Designer or Coordinator**

Funded by
UK Government

Funded by the UK Government through the G7 Legacy Fund. Cornwall Council has been chosen by government as a Lead Authority for the Fund and is responsible for monitoring the progress of projects funded through the G7 Legacy Fund in Cornwall and the Isles of Scilly.
