ELECTRICIAN

earn from **£19,000** to **£55,000**
in Cornwall and the Isles of Scilly

What role do Electricians play in the Construction & Built Environment Industry?

Electricians install power, lighting, and control systems in homes, businesses, and construction sites. They keep to safety standards through inspections and testing. Many electricians are also supporting our carbon net zero goals by specialising in installing solar systems, EV charging points, and low-carbon heating and cooling systems. **Find out more here:**

- You'll need **MATHS** skills to calculate electrical loads, voltages and cable sizes
- Basic **PHYSICS** will be helpful in reading electrical drawings and installing circuits and systems
- Electricians are great **TROUBLESHOOTERS**; they find and fix problems under pressure

Start with a college course
or apprenticeship, then
gain industry experience
to become fully qualified

Once qualified you can work with a company or go self-employed to run your own business.

Experienced electricians can move into Electrical Project Management or Site Supervision!

Funded by
UK Government

Funded by the UK Government through the G7 Legacy Fund. Cornwall Council has been chosen by government as a Lead Authority for the Fund and is responsible for monitoring the progress of projects funded through the G7 Legacy Fund in Cornwall and the Isles of Scilly.
